MALUKA: the yacht that made history - 28436

Amber Bleechmore, Thursday, 8 February 2007

February 5, 2007 - MALUKA: the yacht that made history

On 11 February at 7pm & 9.30pm, ABC2 whisks you off dry land and takes you on a historic voyage aboard Maluka; a 1932-built yacht restored for the 2006 Sydney Hobart Yacht Race. ABC2 follows this journey of rebirth and adventure in **/Maluka: The Yacht That Made History*.

Sean Langman switched from speed to nostalgia by restoring the 9 metre Ranger. What makes Maluka's restoration unusual is that Sean decided to take it one step further. Rather than going for a museum restoration, Sean took Maluka to a standard that enabled her to compete in the recent Sydney Hobart Yacht Race.

The Sydney Hobart Yacht Race began in 1945 when a group of yachting enthusiasts in tiny boats embarked on a voyage across Bass Strait. It soon became one of the most competitive yacht races in the world. Now dominated by the maxi yachts, Sean Langman embraced the original spirit of the race by tackling the treacherous route in the smallest and oldest boat in the 2006 fleet.

Maluka's attempt at the race was history making as it was the 70th anniversary of her first trip to Hobart, which she successfully completed nine years before the first race was run.

In this extraordinary ABC2 special, discover how this 'little boat' went from a skeleton to a Sydney Hobart Yacht Race competitor in a matter of months.

ABC2 is the ABC's digital-only, free-to-air channel - a complementary service offering new, original and innovative content alongside time-shifted ABC programs. It is available free-to-air on channel 21 with a digital set-top box, or from selected pay TV services. For more information, visit abc.net.au/abc2

Australian Women's Keelboat Regatta 2008 - 28995

The new Australian Women's Keelboat Regatta IRC trophy launched in 2008

Erin MCGavin, RMYS, Wednesday, 7 May 2008

Women's Sailing Makes a Splash

The event organisers of the 18th Australian Women's Keelboat Regatta at the **Royal Melbourne Yacht Squadron** could not be happier over the Queen's Birthday weekend as they witnessed *Top Gun*, an Adams 10 skippered by Cath Beaufort of RVYC and helmed by their own Anne Antrecht of the **Royal Melbourne Yacht Squadron** take the honours in IRC division.

In the event's biggest fleet ever with over 127 competitors from Victoria, Tasmania and South Australia, the competition itself was a lot more fierce than the winter winds that refused to co-operate for the most part of the annual regatta. Despite this, all six series races conducted off St. Kilda by the **Royal Melbourne Yacht Squadron (RMYS)** went ahead and provided the public on the St. Kilda foreshore and supporters on spectator boats with an amazing display of women's team - work and talent. This resulted in an exceptionally high standard event, which continually raises the standard of women's sailing in Australia.

Linda Goldsmith, RMYS regatta manager and a long time regatta competitor said that the enthusiasm displayed by the women involved was a credit to competitors with *Tom Cat II*, a J24 skippered by Tanya Stanford taking overall regatta honours. IRC winners *Top Gun*, were the inaugural recipients of the new Ann Maree Pope - Tracy Luke perpetual IRC Trophy. Ann Maree and Tracy were both members of RMYS and were lost in the capsizing of the yacht, *Excalibur* off the New South Wales coast in 2002. The trophy is an opportunity to celebrate the lives of these women both of whom were passionate about their sailing. Under the leadership of fellow Excalibur crew member and accident survivor, Brian McDermott, the new trophy was commissioned with St. Kilda sculptor Louise Hart and a fund was established to provide for IRC prizes into the future.

Hyperactive, a J24 crewed by women from Sandringham Yacht Club, took the honours in the AMS division. The lecture series leading up to the event, proved to be an enormous success, covering a number of racing topics including the sail trimming, racing tactics and the effects of changing weather systems and were delivered by noted international sailors including Frank Hammond (Horizon Sails), Ian "Barney" Walker and Jeni Lidgett. The skills proved to be valuable to the women who continued to raise the standards of racing as the event went on.

The presentation night gave all the teams a chance to bond, let their hair down and reminisce on what could have been. I am happy to report however, that despite the lack of wind, no crew - members were sacrificed to the wind gods in the making of this event.

Royal Melbourne Yacht Squadron would like to thank the sponsors of the
